Pre-conference workshop
Introduction to Ethics in HTA
17 June 2017

JUNE 17-21, 2017

#HTAiRome2017

Welcome!

- Workshop organised under auspices of the INAHTA/HTAi Interest Group on Ethical Issues in Health Technology Assessment (HTA)
- Aim is to learn and apply methods that can be used to explore potential ethical implications of health technology

Outline of the workshop – part 1

- 8.30- 8.45 Brief introduction, Gert Jan van der Wilt
- 8.45- 9.00 Brainstorm 1: What are the most prominent ethical challenges with health checks?
- 9.00-9.10 Brainstorm 2: How would you address the ethical issues with health checks in the context of an HTA?
- 9.10-9.30 How to address ethical issues: Methods for ethics in HTA, Bjorn Hofmann.
- 9.30-9.40 Brainstorm 3: How would you search for and appraise evidence when addressing ethical issues with health checks in the context of an HTA?
- 9.40-10.00 Engaging with the ethics literature, Ken Bond. Aim: presenting practical tools on how to appraise primary ethics literature.

Coffee break

- 10.15-10.25 Brainstorm 4: How would you report on the results with health checks in the context of an HTA?
- 10.25-10.45 Reporting on ethics in HTA, Anna Scott / Dario Sacchini

Then it is your turn!

Outline of the workshop – part 2

- 10.45-10.50 Introduction to the assignment, Gert Jan van der Wilt
- 10.50-11.40 Assignment (in small groups) - Case study: Health checks
- 11.40-11.55 Reports from each of the groups
- 11.55-12.00 Wrap up and closure, Wija Oortwijn / Gert Jan van der Wilt

Thank you!
