

DR. GEOFF HIGGINS

Senior Consultant

Microbiology and Infectious Diseases

Dr Higgins is a medical graduate from the University of Adelaide. He has further qualifications as an Infectious Diseases physician from the Royal Australasian College of Physicians and as a Microbiologist from the Royal College of Pathology of Australasia. He completed a PhD on papillomaviruses at the University of Adelaide. After 2 years in Cambridge UK, in 1993 he returned to South Australia to work as a Medical Consultant in the Division of Virology of SA Pathology and worked in Infectious Diseases at the Royal Adelaide Hospital. Dr Higgins has had a long-term interest in developing and implementing molecular diagnostic techniques for routine pathology testing for hospital and general practice patients. Dr Higgins has recently stepped down as Clinical Director of the Microbiology and Infectious Directorate, SA Pathology but remains working part time as a Clinical Virologist.
