

DR. DAPO OGUNBAYO

Programme Manager – Healthcare Innovations (Pharmaceuticals) ***NIHR Innovation Observatory***

Dapo is the Programme Manager responsible for the delivery of NIHR Innovation Observatory's Medicines Programme that includes horizon-scanning, evidence synthesis and research activities. He leads the team that produces and delivers timely intelligence and key outputs on innovative medicines that are in clinical development to national stakeholders in the UK.

Dapo has a pharmacy (B.Pharm) and public health (MPH) background and a PhD in pharmacy practice. He has research interests in regulatory science, health technology assessment and patients' access to, and use of, medicines.
